

REGULATIONS RELATING TO REGISTRATION

Preamble

NQA provides certification services to National and International management systems standards such as the ISO 9001, ISO 14001 and ISO 27001.

Where reference is made to 'the relevant standard' in these Regulations, this is to mean one or more of the standards forming the Application for Registration and any linked requirements (e.g. IATF 16949) against which registration is required.

Confidentiality

1. All information acquired by NQA, about an applicant or a registered company, shall be confidential and, except as required by an accrediting organisation or for input to industry databases, shall not be disclosed to a third party without the prior written agreement of the company concerned.

Registration

2. A company (or partnership, government department, local authority or other appropriate body), whose management system for part or all of its operation (its scope) has been assessed by NQA as being compliant with the requirements of the relevant standard, may be granted registration. NQA maintains and makes publically accessible on request, a directory of valid certifications.
3. The continuance of registration for such scope is dependent upon the outcome of periodic surveillance/re-certification audits of the company's system by NQA in order to assure itself that all the requirements of the current edition of the relevant standard continue to be met by the company.

Management Representatives

4. The management representative is the person, nominated by the company, who is functionally responsible to the executive management for the maintenance of that company's management system and who is fully conversant with the requirements of the relevant standard.
5. Notwithstanding regulation 11; for IATF 16949 certification; consultants to the client cannot be physically present at the client's site during the audit or participate in the audit in any way.

Access

6. Clients will be required to provide access:
 - a) to representatives of NQA to carry out assessment activities and internal witnessed audits, and
 - b) to the accreditors of NQA, appropriate competent bodies or IATF to facilitate the witnessing of NQA conducting assessment activities.
 - c) IATF representatives or their delegates.

Application for Registration

7. The process of registration normally involves a Stage 1 audit of the company's management system and a subsequent Stage 2 audit of the implementation of that system. Application by a company for both a Stage 1 and Stage 2 audit shall be made to NQA in such a manner as NQA may from time to time prescribe.
8. An application shall be submitted, on the prescribed form, for all addresses from which activities within the company's proposed scope of registration are arranged or carried out. These regulations apply to all such addresses with equal validity.
9. It is the responsibility of applicants to satisfy themselves that the proposed scope of registration meets their requirements. The applicant shall also determine which accredited registration or combination of accredited registrations is required (see Preamble).

Application/Initial Audit Fees

10. An initial fee shall be payable in respect of the application. This fee, or

appropriate part fee plus direct debit mandate, shall accompany the application form. The fee covers the administrative cost of processing the application and of undertaking the Stage 1 and Stage 2 audits of the company's MS. Any additional work associated with either audit (e.g. visits to additional addresses or to further audit the MS) will incur the payment of

Supplementary Fees. All fees relating to either audit shall be as prescribed by Regulation 32.

Stage 1 Audit

11. An applicant shall permit NQA, by such assessors and experts as it may appoint for the purpose, to audit the company's MS for the time in being.

The company shall have the right to raise an objection to the composition of the audit team, providing grounds for such objection. NQA shall not unreasonably disregard the grounds for objection. The applicant shall provide appropriate facilities for such purpose, including office accommodation, and all supporting documentation sought by the assessor.

The company's management representative, or his deputy, shall be present, or available, throughout the Stage 1 audit. Where a management consultant is also present, the applicant shall ensure that the consultant does not attempt to influence the course or outcome of the Stage 1 or

Stage 2 audit. A senior executive of the company shall attend the Stage 1 opening and closing meetings. If the Stage 1 audit indicates that the clients application should proceed, a Stage 2 audit is arranged.

Stage 2 Audit

12. An applicant shall permit NQA, by such assessors and experts as it may appoint for the purpose, to assess the compliance of the company's management system against the requirements of the relevant standard.
13. The company shall have the right to raise an objection to the composition of the audit team, providing grounds for such objection. NQA shall not unreasonably disregard the grounds for objection. The applicant shall provide unrestricted access to those parts of his business, premises and supporting documents covered by the proposed scope of registration.
14. Office accommodation shall be made available for the duration of the Stage 2 audit, and the company's management representative, or his deputy, shall be present throughout that Stage 2 audit. A senior executive of the company shall attend the opening and closing meetings. The Stage 2 audit visit shall normally take place within six months of the Stage 1 audit. In the event that the time interval exceeds six months, NQA may require, by such assessors and experts as it may appoint, to verify that the company's MS has not substantially changed.

Appraisal of Application for Registration

15. When considering an application for registration following a Stage 2 audit, NQA may, at its discretion, decide to:
 - a) grant registration, or
 - b) decline registration.

Registration Fee

16. Registration, including entry in National and International Directories of Registered Companies, if appropriate, is contingent upon the payment of a Registration Fee. The fee covers the administrative cost of processing registration and any surveillance audit visits scheduled to take place during the remainder of that financial year. Additional, unscheduled surveillance audit visits will incur an additional charge.

The Registration Fee shall be payable by the company prior to the issue of the Certificate of Registration unless a direct debit mandate has been raised. The fee relating to registration shall be as prescribed by Regulation 32.

Certificate of Registration and Replicas of NQA Devices

17. Following payment of the Registration Fee, NQA shall issue a Certificate of Registration detailing the company's scope of registration and incorporating the date of registration, validity period and the certificate number. The certificate shall incorporate the appropriate accreditation mark. The certificate and audit report(s) are the property of NQA and shall be returned, upon request, to NQA on cessation of registration for whatever reason.
18. The Certificate of Registration shall contain the following information in respect the company:
- the name and geographic location of the client, (or the geographic location of the Head Office and any sites within the scope of a multisite certificate),
 - the dates of granting, extending or renewing certification,
 - the expiry date,
 - a unique identification number,
 - the precise standard and/or other certification criteria, against which certification is issued,
 - the scope of certification,
 - the name, address and certification mark of the NQA,
 - any other information required by the certification criteria,
19. During the currency of its registration with NQA, a company shall be entitled to advertise that fact and to use the NQA Registration or Certification Mark(s) as appropriate, the former in the case of accredited scopes and the latter by all registrants. All use of NQA Registration and Certification Marks must be in accordance with the Conditions of Use of NQA's Marks. No company shall normally be permitted to hold more than one certificate number for each registration held. A company shall not use either the NQA Registration Mark or the NQA Certification Mark, until its Certificate of Registration is issued. Registered companies are prohibited from using the IATF logo in any capacity.
20. A company registered with NQA shall, at all reasonable times, be prepared to produce its Certificate of Registration for inspection by an authorised representative of NQA.

Conditions of Continued Registration

21. Registration shall subsist, without renewal, until the end of the NQA financial year within which certification was granted, subject to the satisfactory outcome of any periodic surveillance and re-assessment audits carried out by NQA (see Regulations 23 to 29) and compliance with these Regulations Relating to Registration, as may be amended from time to time.
22. A company registered with NQA shall be eligible for continued registration subject to:
- payment of an Annual Registration Fee, as prescribed in Regulation 32, with payment to be received by 1 April; or have in place an acceptable direct debit mandate, and
 - access, by NQA representatives, to those parts of the business and premises covered by the scope of registration for the purpose of periodic surveillance audits of the management system (see Regulation 23), and
 - application being made for the inclusion of any additional addresses at which activities covered by the scope of registration are carried out or arranged and which are, in consequence, subject to the controls described in the company's MS, and

Periodic Surveillance Audits

23. The certification issued to clients whose management system has been shown to comply with the criteria against which an assessment was conducted, as described in Regulations 11 to 14 will be maintained by NQA conducting periodic surveillance audits. The first surveillance audit will take place at a time prescribed by NQA, which would normally be no more than twelve months following the date of the certification decision.
- In the event that the certified organization refuses to participate in an unannounced surveillance audit, the certificate shall be suspended immediately, and subsequently withdrawn if the unannounced audit is not conducted within six-months (23. a is FSSC specific).
24. The company shall have the right to raise an objection to the composition of the audit team, providing grounds for such objection. NQA shall not unreasonably disregard the grounds for objection. The client shall provide unrestricted access to those parts of his business, premises and supporting documents covered by the proposed scope of registration.
25. Subsequent surveillance audits shall normally be undertaken on a notional annual or bi-annual basis as deemed necessary by NQA, (unless further visits are deemed necessary by NQA). The requirements of Regulations 12 to 14 are generally applicable.

Re-certification Audits

26. Certification will normally be valid for a period of three years, subject to compliance with Regulation 22. Prior to the conclusion of three year certification cycle, a re-certification audit will be carried out by NQA in lieu of a periodic surveillance audit, as described in Regulations 23 to 25. This re-certification audit will evaluate the continued conformity and effectiveness of the client's management system as a whole with all of the requirements of the certification criteria.

The company shall have the right to raise an objection to the composition of the audit team, providing grounds for such objection. NQA shall not unreasonably disregard the grounds for objection. The applicant shall provide unrestricted access to those parts of his business, premises and supporting documents covered by the proposed scope of registration.

27. Following a recertification audit, NQA may, at its discretion, decide to:
- grant continued registration, or
 - decline continued registration.
28. Should the decision be to grant continued certification, NQA will reissue the certificate of registration to the client as described in Regulation 17. That re-issued certificate will be normally valid for a period of three years, subject to compliance with Regulation 22.

Suspension

29. Management system certification issued by NQA may be temporarily suspended for a number of reasons including:
- voluntary cessation (by the client) of the operation of the certificated management system for whatever reason, (as required by Regulation 22f),
 - the management system adopted by the client has persistently or seriously failed to meet the certification criteria and has shown itself to be incapable of being effective, (as required by Regulation 22f), and
 - the client has not permitted NQA to conduct surveillance/ reassessment activities (as required by Regulation 22b).
30. During its suspension, for whatever reason, the client shall not promote any claim to the effect that his management system is certificated. In addition NQA may place notice on its website (www.nqa.com) that a client's certification is under suspension.

Financial Year, Fees and Charges

31. The financial year of NQA starts on 1 April. Fees and charges, as prescribed, shall be subjected to Value Added Tax at the prevailing rate, are non-refundable and payable as follows:

 - Cancellation Fee – payable within twenty-eight days of the date of invoice.

Appointments, Postponements and Cancellations

32. Clients shall be given adequate notice of a visit by NQA. Once confirmed, an additional fee will be charged if a visit is postponed or cancelled by the client within 20 working days of its planned occurrence. The fee chargeable will be based on a percentage of NQA's current standard day rate fee per audit day, as follows: cancellation on the day = 100%, cancellation within 5 working days = 90%; cancellation within 6-20 days = 50%. Additional non-refundable expenditure that has been incurred by NQA (e.g flights or hotels) will also be re-charged.

Cancellation and Withdrawal of Registration

33. NQA may, at any time, cease consideration of an application, or cancel registration of a company for failure to make payment of the prescribed fees and charges, as required in Regulation 32. The decision to cease consideration of an application, or to cancel

registration, shall be notified to the company in writing and shall be deemed to become effective at the expiration of fourteen days after the date of dispatch of the letter. Should the company seek to have their registration reinstated, then NQA may make a charge to cover the costs involved.

34. NQA may, at any time, withdraw the registration of a company if it is shown to the satisfaction of NQA that:
- it has committed a breach of any of the obligations imposed by these Regulations, or
 - it fails to maintain its management system to the requirements of the relevant standard, or

 - it fails to advise NQA, within twenty-eight days, of a change of management representative at any of its business locations covered by its Certificate of Registration, or
 - it fails to notify NQA without delay, of the occurrence of a serious incident or breach of regulation necessitating the involvement of the competent regulatory authority.
 - it becomes bankrupt or insolvent or has a receiving order made against it, or compounds with its creditors or being a corporation commences to be wound up (not being a members voluntary winding up for the purposes of reconstruction) or carries on business under a receiver for the benefit of creditors or any of them or if, in the opinion of NQA, the nature of its work has changed or
 - it shall cease to trade or if there be any change in the ownership of the business that materially affects the conditions under which the company was registered, or
 - it performs any act which, in the opinion of NQA, is contrary or prejudicial to the objects or reputation of NQA.

35. Before deciding whether or not to withdraw the registration of a company in accordance with Regulation 34, NQA shall inform the company, in writing by recorded delivery, of their intention to do so and the reason for the withdrawal. NQA shall afford the company the opportunity to make representation in writing to NQA within fourteen days of the date of recorded dispatch, and shall consider such representation before deciding whether or not to withdraw the registration of the company.
36. A decision to withdraw the registration of a company under Regulation 36 shall be notified in writing by recorded delivery. The registration of a company which is withdrawn shall not be transferred to any other company. Notwithstanding Regulation 1, NQA may make public the withdrawal of registration and the associated regulation(s) which was infringed.
